

Timing Device

To complete the check in process, entrants are required to check the timing device on their race number to ensure their timing chip details are correct and the race number has been assigned correctly.

Timing Device Checker

Your role is to make sure all entrants swipe their race number on the timing device reader and check their details are correct.

1. Scan the timing chip on the reverse of the race number over the reader.

2. Check details on the screen are correct:

Name

Race Number

Start Zone Colour

The details **MUST** match those of the entrant, if not, please direct them to the Help desk to rectify. The race number may not have been assigned correctly or may be assigned to someone else.
